Scheduled exhibition Patio Herreriano (Valladolid, Spain)_ **January 2022**

Opening hours_ **Monday - Friday 09:30- 16:00 and by appointment**

The work of **Jacobo Castellano** (Jaén, 1976) obsessively refers to the recovery of memories stored in his memory and leads to a deep reflection on essential themes such as life and death. In his creations his own memories are present, many of them linked to the imaginary of his native Andalusia, which also explore themes such as games, pain or violence.
